About Me

I am a Front-End Developer skilled in HTML, CSS, JavaScript, React, and Next.js, with a passion for clean and user-friendly web applications. I completed the Front-End Developer program at Acunmedya Academy and am pursuing an Associate Degree at Istanbul University via distance education.

Tech Skills

- HTML
- CSS
- JavaScript
- React
- Next.js

Education

Web Design and Programming
İstanbul University   2023 – Present

Currently pursuing my degree in Web Design and Coding at Istanbul University. Through this program, I am building a strong foundation in both design principles and programming, with a focus on creating modern, user-friendly, and responsive web applications.

Extended Frontend Specialization
Nişantaşı University   2024 - 2024

Completed an Extended Frontend Development Specialization Program, gaining practical experience in modern web technologies. This training focused on building responsive interfaces, mastering JavaScript frameworks, and applying industry-level best practices in frontend development.

Experience

INTERN
Mavinesil İnteraktif Hizmetler   2016 - 2020

As an intern at Mavinesil Interactive Services, I gained experience in creating social media posts, managing company cargo and paperwork, and transferring data from Excel to a dashboard for efficient company list management.

INTERN
BiiClick Digital Agency   2019 - 2020

At BiiClick Digital Agency, I worked on creating social media posts, managing company cargo and paperwork, and transferring Excel data to a dashboard for managing the company list.
